DROPOSALS FOR BUILDING AN IRON

SEUTIONAL BALANCE DRY DOCK.

WASHINGTON, D. C., July 20, 1873.

Sealed Proposals, indorsed "Proposals for Building an Iron Sectional Belance Dry Dock," will be received at the Navy Department until 12 c'elock m. on the 18th day of September next, from dry dock builders, manufacturers and mechanics acquainted with that kind of work, for furnishing the materials for, and the building of, two sections of an Iron Sectional Balance Dry Dock at the Navy Yard, Pensacola, Florida.

Said dock to be erected and used in a basin in said yard 358 feet in length and 110 77-100 feet in width.

Each section thereof to be of about the following dimensions, vir: Width, 108 feet; length, 36 feet 6 inches; depth 11 feet; and to have a displacement above its own weight, when completed, ready fer use, of about 600 tons.

The general plans and specifications for the whole of this dock have been adopted, and may be seen and examined at the Navy Department. These plans and specifications are, however, adopted and assumed by the Government only as the general character and dimensions of the dock, not as guaranteeing its strength, capacity and successful operation. But the contractor must assume and approve them to that extent, and will be himself held responsible that they are suitable and smillient for the purpose desired, and also for 'he strength, capacity and successful operation of the dock, when built, for two years after it has been tested and found to be ready for use.

No increase of size and general dimensions will be permitted without the express sanction of the Department.

The contractor will also furnish, for one section, called the engine section, two upright beam engines and bollers with all the necessary pumps, water tanka, shafting, gearing, machinery and attachments of sufficient strength and power to raise the dock of six sections, with a vessel of 3,200 tons weight upon it, in one hour.

The engines and beliers will be protected by a suitable house, to be bui Sunday.

National Republican FINANCE AND COMMERCE

Washington, Saturday Evening, Aug. 14, The sale of the property and franchises of the Northern Pacific Railroad Company by a decree of the United States Circuit Court will result in an early completion of the road, and help to re-store the country to the prosperous condition which immediately preceded the failure of Jay Cooke. If the country through which the new and unconstructed portion of the read will pass possesses fifty per cent. of its reported mineral and agricultural value it will furnish a rich field for industry, labor and enterprise. The bond-holders act wisely in listening to the advice of the purchasing committee. The creation of \$51,000.000 of preferred stock will swallow up all the dosting diabilities, amounting to \$35,000,000, and enhance the trinsic value of the bondolders' in-vestment by 40 per cent, and relieve him from the

vestment by 40 per cent, and relieve him from the liability to assessments.

The difficulties which Jay Cooke had to encounter in the consummation of his plans are removed. The heaviest part of the work was done when money was in demand for other purposes. The country is richer to-day in material wealth, and currency is a drug in the market. Some \$100,000,000 of idle capital are lying in New York banks alone. This roal may furnish a key for the unlocking of this and other accumulated funds and distribute it over the land, if other circumstances do not sooner arise to effect this end. cumistances do not so over the land, if other circumistances do not so over the land, if other circumistances do not sooner arise to effect this end.

The specie shipments from New York during
the past week were \$1,572,250, of which \$584,500
were in gold coin, and the remainder silver and
gold bars. The imperts of specie during the
week were \$68,900, of which \$89,000 were gold.

The imports of merchandles for the same time
amounted to \$8,843,937, of which \$4,037,731 were
dry goods. The imports of merchandise for the same time amounted to \$5,843,937, of which \$4,037,731 were dry goods.

There has been a further loss in legal tender reserve by New York banks—reducting the excess above the 25 per cent. requirement to \$22,180,000.

The sub-Treasury balances at New York to-day were: Gold, \$54,850,80cc currency, \$50,055,194.

The Sub-Treasurer paid out \$41,000 on account of interest, and \$22,000 for bonds. Customs receipts, \$356,000.

onice, glocolo.

In the local markets the guaranteed 3-55 bonds alone have been erratic as considered with regard to small lots in the hands of vaciliating holders. There have been spells of buoyancy and spells of depression, with the depression in the perponderance. The issue during the three bond days of this week has been larger than for some time past. The books of the sinking fund domaissioners make the following exhibit: The total issue of District of Columbia 3-60° to close of business Saturday sight is \$6,701,500, the issue this week being \$188,400.

A better market cannot be expected until after the removal of the causes of stagmation heretofore noted.

"In the gold market those who have been endeavoring to raise the premium, and at one time succeeded in getting it to 114%, have been unable to accomplish much in the face of the reduction of the Bank of England rate to 2 per cost, and the general buoyancy of all classes of American securities in London, accompanied by a reduction in rates of exchange here. In fact there seems little hope of their doing much more in this direction, as they would certainly have to 'swim against the current,' not only of facts, but of public opinion, which is always in favor of lower gold. The recent call for \$10,000,000 of 5-30's shows the success of the syndicate in marketing the new 5's, and is another reason against any material advance in gold."
